## IDENTIFY CONCERNS

I was concern about to find a way to show the story with almost no speaking at all because is really hard to just show a story with no speaking .  
I was concern about showing the meaning of who one of the students became a doctor for doing good and the other one end up dying for no followed the right way .  
I was concern if the public (teenager) would get the message of the video .

---

## SET A GOAL

Plan to do a movie with students and teacher by December 22 , showing one of the big struggles that teenager have falling on drugs and bad behave .

## FORM A PLAN (WHO, WHAT, WHEN, WHERE, HOW, COST, RESOURCES, AND EVALUATION)

We didn't have a budget so we get the resources from our school . Ms. Anderson let us borrowed one of her room to film the party part of the video , Ms. Bodie let us borrowed a video camera from her class to film the video , Ms.Gamble (the principal ) helped us with the scene where they took the kid out the room because how he was behaving , The school nurse helped with the room ("hospital" ) and with the tools . Ms. Beasley helped us planning and giving us ideas and watching us for the restroom scene . Mrs. Tombs helped us with the crown room of student to film the class scene . Andres was the best friend of Leo in the video.  
Leo was one of the main character , Maya was one of the main character too .

## ACT

Well most of the things went well but I didn't put so many effects as I wanted . It was a struggle to get people together to film , it took me more long to film the scenes , we learn how to make and cut a video that was a struggle . People start laughing in the scenes and we struggle with that making the scenes more longer , we struggle deciding the places to film. We struggle making our ideas work . We had the teacher being so helpful to us more than we expected .  
One of the struggle was knowing my partner at the same time we were working together , we find a way to work and making a strong friendship .

## FOLLOW UP

We would change effects , the app to edit the video , start before , have more plans and Different way to do it , music and resources .

We did a good job working and making us stronger with each of our mistake also we learn how to do so many things .  
We did a good job making contact with people and doing things with passion .  
We did also a good job trying new things .
